REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF ABU DHABI ISLAMIC BANK PJSC

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Abu Dhabi Islamic Bank PJSC (the “Bank”) and its subsidiaries (together the “Group”) as at 31 March 2024, and the related income statement and statement of comprehensive income for the three-month period ended, and the related statements of changes in equity and cash flows for the three-month period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard IAS 34 Interim Financial Reporting (“IAS 34”). Our responsibility is to express a conclusion on this interim financial information based on our review.

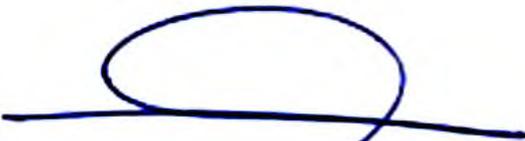

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

31 March 2024 (Unaudited)****3 Basis of preparation (continued)****3.2 Significant judgements and estimates**

The preparation of the condensed consolidated interim financial statements in conformity with the International Financial Reporting Standards requires management to make judgment, estimates and assumptions that affect the application of accounting policies and reported amounts of financial assets and liabilities and the disclosure of contingent liabilities. These judgments, estimates and assumptions also affect the revenue, expenses and provisions as well as fair value changes.

These judgments, estimates and assumptions may affect the reported amounts in subsequent financial years. Estimates and judgments are currently evaluated and are based on historical experience and other factors. In order to reduce the element of subjectivity, the Group has laid down clear criteria to enable estimation of future cash flows. As estimates are based on judgments, actual results may differ, resulting in future changes in such provisions.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty are the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2023.

4 Significant accounting policies

The condensed consolidated interim financial statements do not contain all information and disclosures required for full consolidated financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2023. In addition, results for the three months ended 31 March 2024 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2024.

The accounting policies used in the preparation of the condensed consolidated interim financial statements are consistent with those used in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2023.

31 March 2024 (Unaudited)****12 Zakat and tax****Zakat**

In few jurisdictions, Zakat of the Bank's branches and subsidiaries is mandatory by laws to be paid to a governmental entity responsible of Zakat, therefore, the Bank acts accordingly to these laws and pays the Zakat to these.

As the Bank is not required to dispose Zakat by UAE laws or by its Articles and Memorandum of Association or by a decision of the General Assembly, each shareholder is responsible of his or her own Zakat.

Tax

On 9 December 2022, the United Arab Emirates (UAE) Ministry of Finance ("MoF") released Federal Decree-Law No 47 of 2022 on the Taxation of Corporations and Businesses, Corporate Tax Law ("CT Law") to enact a new CT regime in the UAE. The new CT regime has become effective for accounting periods beginning on or after 1 June 2023. As the Group's accounting year ends on 31 December, the first tax period will be the period from 1 January 2024 to 31 December 2024, with the respective tax return to be filed on or before 30 September 2025.

The taxable income of the entities that are in scope for UAE CT purposes will be subject to the rate of 9% corporate tax. It is not currently foreseen that the Group's UAE operations will be subject to the application of the Global Minimum Tax rate of 15% in FY2024. The application is dependent on the implementation of Base Erosion Profit Shifting (BEPS 2) - Pillar Two rules by the countries where the Group operates and the enactment of Pillar Two rules by the UAE MoF.

The tax charge for period ended 31 March 2024 is AED 191,629 thousand (31 March 2023: AED 61,583 thousand), representing an Effective Tax Rate ("ETR") of 11.7% (31 March 2023: 5.3%) with corporate tax rate of 9% for UAE and other international jurisdictions mainly Egypt at 22.5%.

Furthermore, Bank pays taxes on its international branches and subsidiary in accordance with the tax laws prevailing in those countries.

Diluted earnings per share are calculated by dividing the profit for the period attributable to ordinary equity holders of the Bank by the weighted average number of ordinary shares outstanding during the period, adjusted for the effects of any financial instruments with dilutive effects.

The following reflects the income and shares data used in the earnings per share computations:

38 Capital adequacy ratio

The Central Bank of the UAE sets and monitors capital requirements for the Group as a whole. The CBUAE issued Basel III capital regulations, which came into effect from 1 February 2017 introducing minimum capital requirements at three levels, namely Common Equity Tier 1 (“CET1”), Additional Tier 1 (“AT1”) and Total Capital.

The additional capital buffers (Capital Conservation Buffer (“CCB”) and Countercyclical Capital Buffer (“CCyB”) maximum up to 2.5% for each buffer) introduced are over and above the minimum CET1 requirement of 7%.

For 2024 and onwards, CCB will be required to be maintained at 2.5% (2023: 2.5%) of the Capital base. CCyB is not yet in effect and is not required to be maintained for 2024 (2023: Nil).

As part of the measures adopted by the CBUAE to help banks deal with the COVID-19 crisis, CBUAE has issued guidance on Accounting Provisions and Capital Requirements - Transitional Arrangement dated 22 April 2020. The Prudential Filter allows banks to add back increases in IFRS9 ECL provision, stage 1 and 2, from 31 December 2019 to the regulatory capital and transition over 5 years.

40 Fair value of financial instruments**Fair value measurement recognized in the consolidated statement of financial position**

The Group uses the following hierarchy for determining and disclosing the fair value of financial instrument by valuation technique:

Quoted market prices – Level 1

Financial instruments are classified as Level 1 if their values are observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available and the price represents actual and regularly occurring market transactions.

Valuation techniques using observable inputs – Level 2

Financial instruments classified as Level 2 have been valued using models whose inputs are observable in an active market. Valuation based on observable inputs includes financial instruments such as Shari'a compliant alternatives of derivatives and forwards which are valued using market standard pricing techniques and options that are commonly traded in markets where all the inputs to the market standard pricing models are observable.

Valuation techniques using significant unobservable inputs – Level 3

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). A valuation input is considered observable if it can be directly observed from transactions in an active market.

Unobservable input levels are generally determined based on observable inputs of a similar nature, historical observations or other analytical techniques. This hierarchy requires the use of observable market data when available. The Group considers relevant and observable market prices in its valuations where possible.

31 March 2024 (Unaudited)**

40 Fair value of financial instruments (continued)

Financial instruments under this category mainly include sukuk, private equity instruments and funds measured at FVTPL. The carrying values of these investments are adjusted as follows:

- a) Sukuk – using latest available net book value; and
- b) Private equity instruments and Funds – based on the net asset value assessed internally.

Investment properties are classified as Level 3 as their valuation incorporates significant unobservable inputs. The fair value of the properties has been determined either based on transactions observable in the market or valuation models.

The valuation methodologies considered by valuers include:

- a) Comparison method: This method derives the value by analyzing recent sales transactions of similar properties in a similar location.
- b) Investment method: This method derives the value by converting the future cash flow to a single current capital value.
