# Business Current Account Packages - Key Facts Statement

## Re-segmentation

The segmentation is based on the average of the sum of the monthly averages of the daily closing balances of all investments and current accounts in a period of 5 months (calculated as the sum of monthly averages of the daily closing balances of all investments and current accounts in a period of 5 months divided by 5, and the monthly average of the daily closing balances of each account is calculated by dividing the sum of the daily closing balances of such account in each calendar month by the number of days in such month).

- As a result, each customer would be classified either under Business One, Business Premium or Business Elite..
- In case the average balance of the total account(s) under the same customer is less than AED 5K, or equivalent in foreign currencies account(s), then these account(s) shall be subject to either closure, or reclassification under Business One package, based on Business Banking management's discretion.
- If the customer's relationship with ADIB is less than 5 months, then the accounts opened for this customer will be excluded from the process of segmentation.
- The above segmentation process shall be done twice per year in June and December respectively. Consequently, the monthly charge shall be applicable for the 6 months following the month of the segmentation irrespective of the average of the sum of the monthly averages of the daily closing balances of all accounts during these 6 months as follows:

Segmentation in June	The fee shall be applicable starting from July 1st till December 31st
Segmentation in December:	The fee shall be applicable starting from January 1st till June 30th

- The average balance for any foreign account(s) shall be considered in equivalent AED as per the Prevailing Exchange Rate in ADIB systems. All foreign currency accounts daily closing balances will be converted into AED at the Prevailing Exchange Rate of the Bank at the daily closing time. Such Prevailing Exchange Rate of the Bank is calculated based on the mid-rate calculated during the day for each currency. For clarity, such conversion by the system does not result in actual conversion.

### Business Connect

- The Business Connect account will be reclassified under the Business Elite account package in case the average balance for the five months is above AED 750,000 in the event that the monthly charges are not paid for five consecutive months, this account is subject to closure.  
**Note :-** the above condition is only applicable to AED currency accounts and not recommended for closure accounts.
- For reclassification from Business Account's packages (Business One, Business Premium, Business Elite) to Business Connect Account is based on zero branch transactions with at least 10 online transactions per month in the last 5 months.
- Additionally, for Business Elite the average balance should be less than the minimum balance required for the last 5 months.
